Since its inception in 1995, **BLESSMETALS**, has been actively participating in **INTERNATION AL TRADE**
worldwide and in providing the
EXTRACTION
(Mining from general ore deposits or isolated bodies, veins, or strata in layers of rock or soil), and
EXPORTATION OF MINERALS
(Ores).

We ensure quality and results by certifying that all parties involved in the business meet high qualitative and quantitative standards. Additionally, as a result-oriented company, since our establishment, we have been privileged to deal effectively with practically every continent in the world.

We have been dealing with products encompassing several segments of the Services, and Basic Materials sectors, including raw material for the Basic Materials Wholesale, Steel & Iron, and Nonmetallic Mineral Mining industries to be used in fuel combustion, or electrical furnaces of Metallurgical Mills for the production of Pig Iron, Wrought Iron, Slag, Alloys, Steel, and Other metallic and non-metallic products.
